Re: PANDEL Cream  
Docket No. 97E-0271

Dear Mr. Kunin:

This is in regard to the application for patent term extension for U.S. Patent No. 4,290,962 filed by Taisho Pharmaceutical Co. Ltd under 35 U.S.C. § 156. The human drug product identified in the patent extension application is PANDEL Cream (hydrocortisone buteprate), which was assigned New Drug Application (NDA) No. 20-453.

A review of the Food and Drug Administration's official records indicates that this product was subject to a regulatory review period before its commercial marketing or use, as required under 35 U.S.C. § 156(a)(4). Our records also indicate that it represents the first permitted commercial marketing or use of the product, as defined under 35 U.S.C. § 156(f)(1), and interpreted by the courts in Glaxo Operations UK Ltd. v. Quigg, 706 F. Supp 1224 (E.D. Va. 1989), aff'd, 894 F. 2d 392 (Fed. Cir. 1990).

The NDA was approved on February 28, 1997, which makes the submission of the patent term extension application on April 25, 1997, timely within the meaning of 35 U.S.C. § 156(d)(1).

Should you conclude that the subject patent is eligible for patent term extension, please advise us accordingly. As required by 35 U.S.C. § 156(d)(2)(A) we will then determine the applicable regulatory review period, publish the determination in the Federal Register, and notify you of our determination.

Please let me know if we can be of further assistance.

Sincerely,

Ronald L. Wilson, Director  
Health Assessment Policy Staff  
Office of Health Affairs
